The Future of the Faculty Workplace:

A More Engaged World for Teachers

10|25|17 @ 8:00am

Presenters: **Stacy Roth**, Scott Rice
Greg Owsley, Rockhurst High School
Trevor Croghan, One Workplace
David Reid, Gould Evans

Teachers are asked to do a LOT in our transformation to 21st century learning. Yet little has changed in the way schools support them. How can school culture and place positively affect the demanding expectations on teachers? How do we support more positive interactions with students? How do we provide more effective collaboration and professional development to support evolving pedagogy? How can technology be utilized to help overcome outdated paradigms of current faculty workplace thinking?
