

3form

A CULTURE COMMITTED TO HANDCRAFTED DESIGN

3 Form delivers a unique experience that showcases diversity through raw craftsmanship. Each 3 Form product tells a story. Take a simple quilt for example – it's a narrative for many cultures. Like each square in a quilt tells a story, so to do the interlayers of a product. Artisans around the world utilize natural resources to hand craft products that are used in their everyday lives. These artisans all share one belief – that every material tells a story. Skilled villagers from Nepal, Africa, and Indonesia have created works of art with the use of recycled natural resources like silk, bamboo, raffia strands, and wood shavings. In a collaborative effort to bring to life handcrafted materials around the world, 3 Form and artisans work together to restore Earth's natural resources.

Every villagers story is important to tell. Through this simple form –a table– you will discover the life behind each artisan and their product.

3form Table

Designed by CIC

Table Base Finish: Steel Case 4AV3 Blue Jay Paint
